## SUBJECT INDEX

### No. 4: The Pharynx and Larynx

- Adenoids, childhood abnormalities of, 283, 286
- Allergic disorders, 311-314
- Amyloidosis in larynx, 321
- Angiofibromas, juvenile, 287
- Antral sign in juvenile angiofibromas, 287
- Arthritis, cricoarytenoid, 321
- Aryepiglottic folds, 268
  - cysts of, 294, 316
  - laryngeal tonsil on, 321
  - laryngomalacia and, 293
  - tumors of, 302-303
- Arytenoid cartilages, 268
  - cricoarytenoid arthritis in, 321
  - ossification of, 269, 272
  - trauma to, 315
- Aspiration, in abnormal deglutition, 276
- Atresia, laryngeal, during childhood, 296
- Audiorecording, velopharyngeal incompetence recorded through, 285
- Barium studies
  - of childhood abnormalities, 288, 290, 297
  - cineroentgenography of, in neoplastic disease, 301, 309
  - in neuromuscular disease and swallowing mechanism, 273, 278, 280
  - technique in, 259, 262-263, 265
- Brain stem disorders, and abnormal swallowing patterns, 276-278
- Cancer, contrast radiography for, 301-309
- Cartilages
  - childhood calcification of, 296
  - ossification of, 268-272
  - See also Arytenoid cartilages; Cricoid cartilage; Thyroid cartilage; Triticeous cartilage
- Childhood abnormalities of pharynx and larynx, 283-300, 321
- Cineroentgenography
  - in neoplastic disease, 301, 209
  - techniques for, 259, 265
  - velopharyngeal incompetence recorded through, 285
- Classification of laryngeal tumors, 301
- Cleft palates, velopharyngeal incompetence in, 285, 286
- Clefts, laryngotracheoesophageal, 297
- Congenital flaccid larynx, stridor during infancy and, 292-293
- Contrast laryngopharyngography techniques, 259, 262-264
- Cords. See Vocal cords
- Cricoarytenoid arthritis, 321
- Cricoid cartilage, 268
  - external trauma to, 314, 316
  - ossification of, 269, 270, 272
- Cricopharyngeal sphincter disorders and abnormal deglutition, 277-278, 278-279, 281
- Croup, epiglottitis differentiated from, 290, 292
- Cysts, of larynx and upper trachea, 294-296,
- Diverticula, pharyngeal, in childhood, 284-285
- Edema, allergic disorders and, 311-314
- Epiglottis, 267, 268
  - cancer of, 302
  - retention cysts on, 316
  - swallowing disorders and, 273
- Epiglottitis, croup differentiated from 290, 292, 311
- Epilarynx, classification of, 301
- Esophagus, pharyngeal dysphagia and dysfunction of, 281
- First arch syndromes, and micrognathia, 283

- Fixation of cord, 308, 321
- Foreign bodies
  - childhood ingestion of, 290, 297
  - differential diagnosis of, 267-272
- Granulomatous lesions of larynx, 311
- Hemangiomas, subglottic, during childhood, 294, 296
- Hyoid bone fractures, 314
- Hypopharynx sinus
  - abnormal deglutition and webs of, 280-282
  - fungating exophytic cancer of, 309
- Incoordination, pharyngeal, in childhood, 285
- Killian's dehiscence, 267
- Laryngitis, forms of, 311
- Laryngoceles, forms of, 296, 316-319
- Laryngomalacia, and stridor during infancy, 292-293
- Lymphoepithelioma in childhood, 287
- Macroglossia in childhood, 283
- Metastases incidence, 301
- Micrognathia in childhood, 283
- Motility disturbance, and abnormal deglutition, 276
- Musculature disorders, and abnormal deglutition, 278-279
- Myasthenia gravis, and swallowing mechanism, 278
- Myoneural junction disorders, and abnormal deglutition, 278
- Myotonia dystrophica, and swallowing mechanism, 279
- Neck, soft-tissue roentgenograms of, 259
- Neoplastic disease, and contrast radiography, 301-309
- Neuromuscular disorders, and swallowing mechanism, 273-281
- Ossification, laryngeal, 268-272
- Papillomas, juvenile laryngeal, 294-296
- Papillomatosis of larynx, 321
- Passavant's ridge, in cleft palate, 286
- Pyoceles, surgical resection for, 319
- Retention cysts, location of, 316
- Retention in pharyngeal recesses during deglutition, 276
- Retropharyngeal space measurement in childhood abnormalities, 287-290
- Squamous carcinomas of cord, 308
- Staging of laryngeal tumors, 301
- Stasis, pharyngeal, and abnormal deglutition, 276
- Stenosis
  - laryngeal, during childhood, 296
  - prolonged endotracheal intubation and, 314
  - subglottic, during childhood, 293-294
  - total laryngeal, from misplaced tracheotomy, 316
  - tracheal, during childhood, 296
- Swallowing mechanism
  - barium swallow for assessment of, 262
  - neuromuscular disorders and, 273-281
- Techniques in roentgenography of pharynx and larynx, 259-265
- Thyroid cartilage, 268
  - external trauma to larynx and, 314
  - ossification of, 269, 270
  - soft-tissue roentgenograms of, 259
- Tomography techniques, 259-262
- Tonsils
  - childhood abnormalities of, 283
  - laryngeal, 321
- Trachea
  - abnormalities of, 290
  - juvenile tumors of, 294-296
  - stenosis of, 296
- Tracheomalacia, during childhood, 293
- Tracheostomy
  - childhood croup and epiglottitis and, 290, 292
  - contrast laryngopharyngography and, 264
  - for subglottic stenosis, 294
- Tracheotomy, total laryngeal stenosis from, 316
- Trauma to larynx, 311, 314-316
- Triticeous cartilage ossification, 272
- Tuberculosis, and larynx, 311
- Tumors
  - childhood, 286-287, 288, 294-296
  - contrast radiography for, 301-309
- Ultrasonography, for lateral wall motion evaluation, 286
- Uvula abnormalities during childhood, 283
- Vascular ring anomalies, during childhood, 297
- Ventricle, laryngeal, prolapse of, 319
- Vocal cords
  - paralysis of, 297, 321-322
  - tomography of, 259-262
  - tumors of, 303-308
- Webs
  - hypopharyngeal, in abnormal deglutition, 279-281
  - laryngeal, during childhood, 296
- Werdnig-Hoffmann's disease, radiologic findings in, 255-257
- Zenker's diverticula, 267, 281, 321

# Seminars in ROENTGENOLOGY

BENJAMIN FELSON, M.D., *Editor*

---

## VOLUME IX, 1974

### No. 1

#### COMPLICATIONS OF RADIATION THERAPY

Letter From the Editor .....	1
Case of the Winter Season .....	<i>Stanford M. Goldman</i> 3
The Radiographic Expression of Radiotherapeutic Injury: An Overview .....	<i>Philip Rubin</i> 5
Complications of Radiation Therapy: Growing Bone .....	<i>Huey Rutherford and Gerald D. Dodd</i> 15
Complications of Radiation Therapy: Adult Bone .....	<i>Murray K. Dalinka, Jack Edeiken, and J. Barnett Finkelstein</i> 29
Complications of Radiation Therapy: The Thorax .....	<i>Herman I. Libshitz and Martha E. Southard</i> 41
Complications of Radiation Therapy: The Alimentary Tract .....	<i>Bernard Roswit</i> 51
Complications of Radiation Therapy: The Genitourinary Tract .....	<i>Bernard S. Aron and Adolph Schlesinger</i> 65
Complications of Radiation Therapy: The Central Nervous System .....	<i>Simon Kramer and K. Francis Lee</i> 75
Index .....	85

### No. 2

#### THE NORMAL SKULL AND ITS VARIATIONS

Letter From the Editor .....	87
Case of the Spring Season .....	<i>Joseph E. Godard</i> 89
The Normal Skull: Techniques and Indications .....	<i>Calvin L. Rumbaugh and David O. Davis</i> 91
The Normal Newborn Skull .....	<i>Leonard E. Swischuk</i> 101
The Growing Skull .....	<i>Leonard E. Swischuk</i> 115
The Normal Adult Cranial Vault .....	<i>Isadore Meschan</i> 125

The Base of the Adult Skull .....	<i>Eugene F. Binet</i>	137
Intracranial Physiologic Calcifications .....	<i>Stephen A. Kieffer and Lawrence H. A. Gold</i>	151
Index .....		163

## No. 3

## SKELETAL CHANGES IN THE HEMATOLOGIC DISORDERS

Letter From the Editor .....		165
Case of the Summer Season .....	<i>Alan E. Oestreich</i>	167
Skeletal Changes in the Anemias .....	<i>John E. Moseley</i>	169
Skeletal Changes in Hemophilia and Other Bleeding Disorders .....	<i>Dennis J. Stoker and Ronald O. Murray</i>	185
Myelosclerosis in Agnogenic Myeloid Metaplasia .....	<i>Frieda Feldman</i>	195
Plasma Cell Dyscrasias (Except Myeloma) .....	<i>Robert R. Renner and J. Robert Smith</i>	209
The Many Facets of Multiple Myeloma .....	<i>William T. Meszaros</i>	219
Skeletal Manifestations of the Lymphomas and Leukemias .....	<i>Bert Lincoln Pear</i>	229
Miscellaneous Diseases Related to the Hematologic System .....	<i>George B. Greenfield</i>	241
Index .....		251

## No. 4

## THE PHARYNX AND LARYNX

Letter From the Editor .....		253
Case of the Fall Season .....	<i>Georg Theander</i>	255
The Pharynx and Larynx: Roentgenographic Technique .....	<i>Bao-Shan Jing</i>	259
Normal Anatomy of the Larynx and Pharynx and the Differential Diagnosis of Foreign Bodies .....	<i>Lawrence R. Muroff and William B. Seaman</i>	267
Swallowing Mechanism and Neuromuscular Disorders .....	<i>Martin W. Donner</i>	273
Abnormalities of the Pharynx and Larynx in Childhood .....	<i>Leonard E. Swischuk, Pliny C. Smith, and Charles J. Fagan</i>	283
Contrast Radiography in Neoplastic Disease of the Larynx and Pharynx .....	<i>William B. Seaman</i>	301
Some Miscellaneous Disorders of the Larynx and Pharynx .....	<i>Judah Zizmor and Arnold M. Noyek</i>	311
Annual Indexes .....		323
